

Genotype class composition per EO (sorted by parent BL)

GFS = Genotypic Fitness Score (heterozygous gamete proportion). Dashed = TP2 AAAA threshold (30%). X-axis labels colored by parent BL

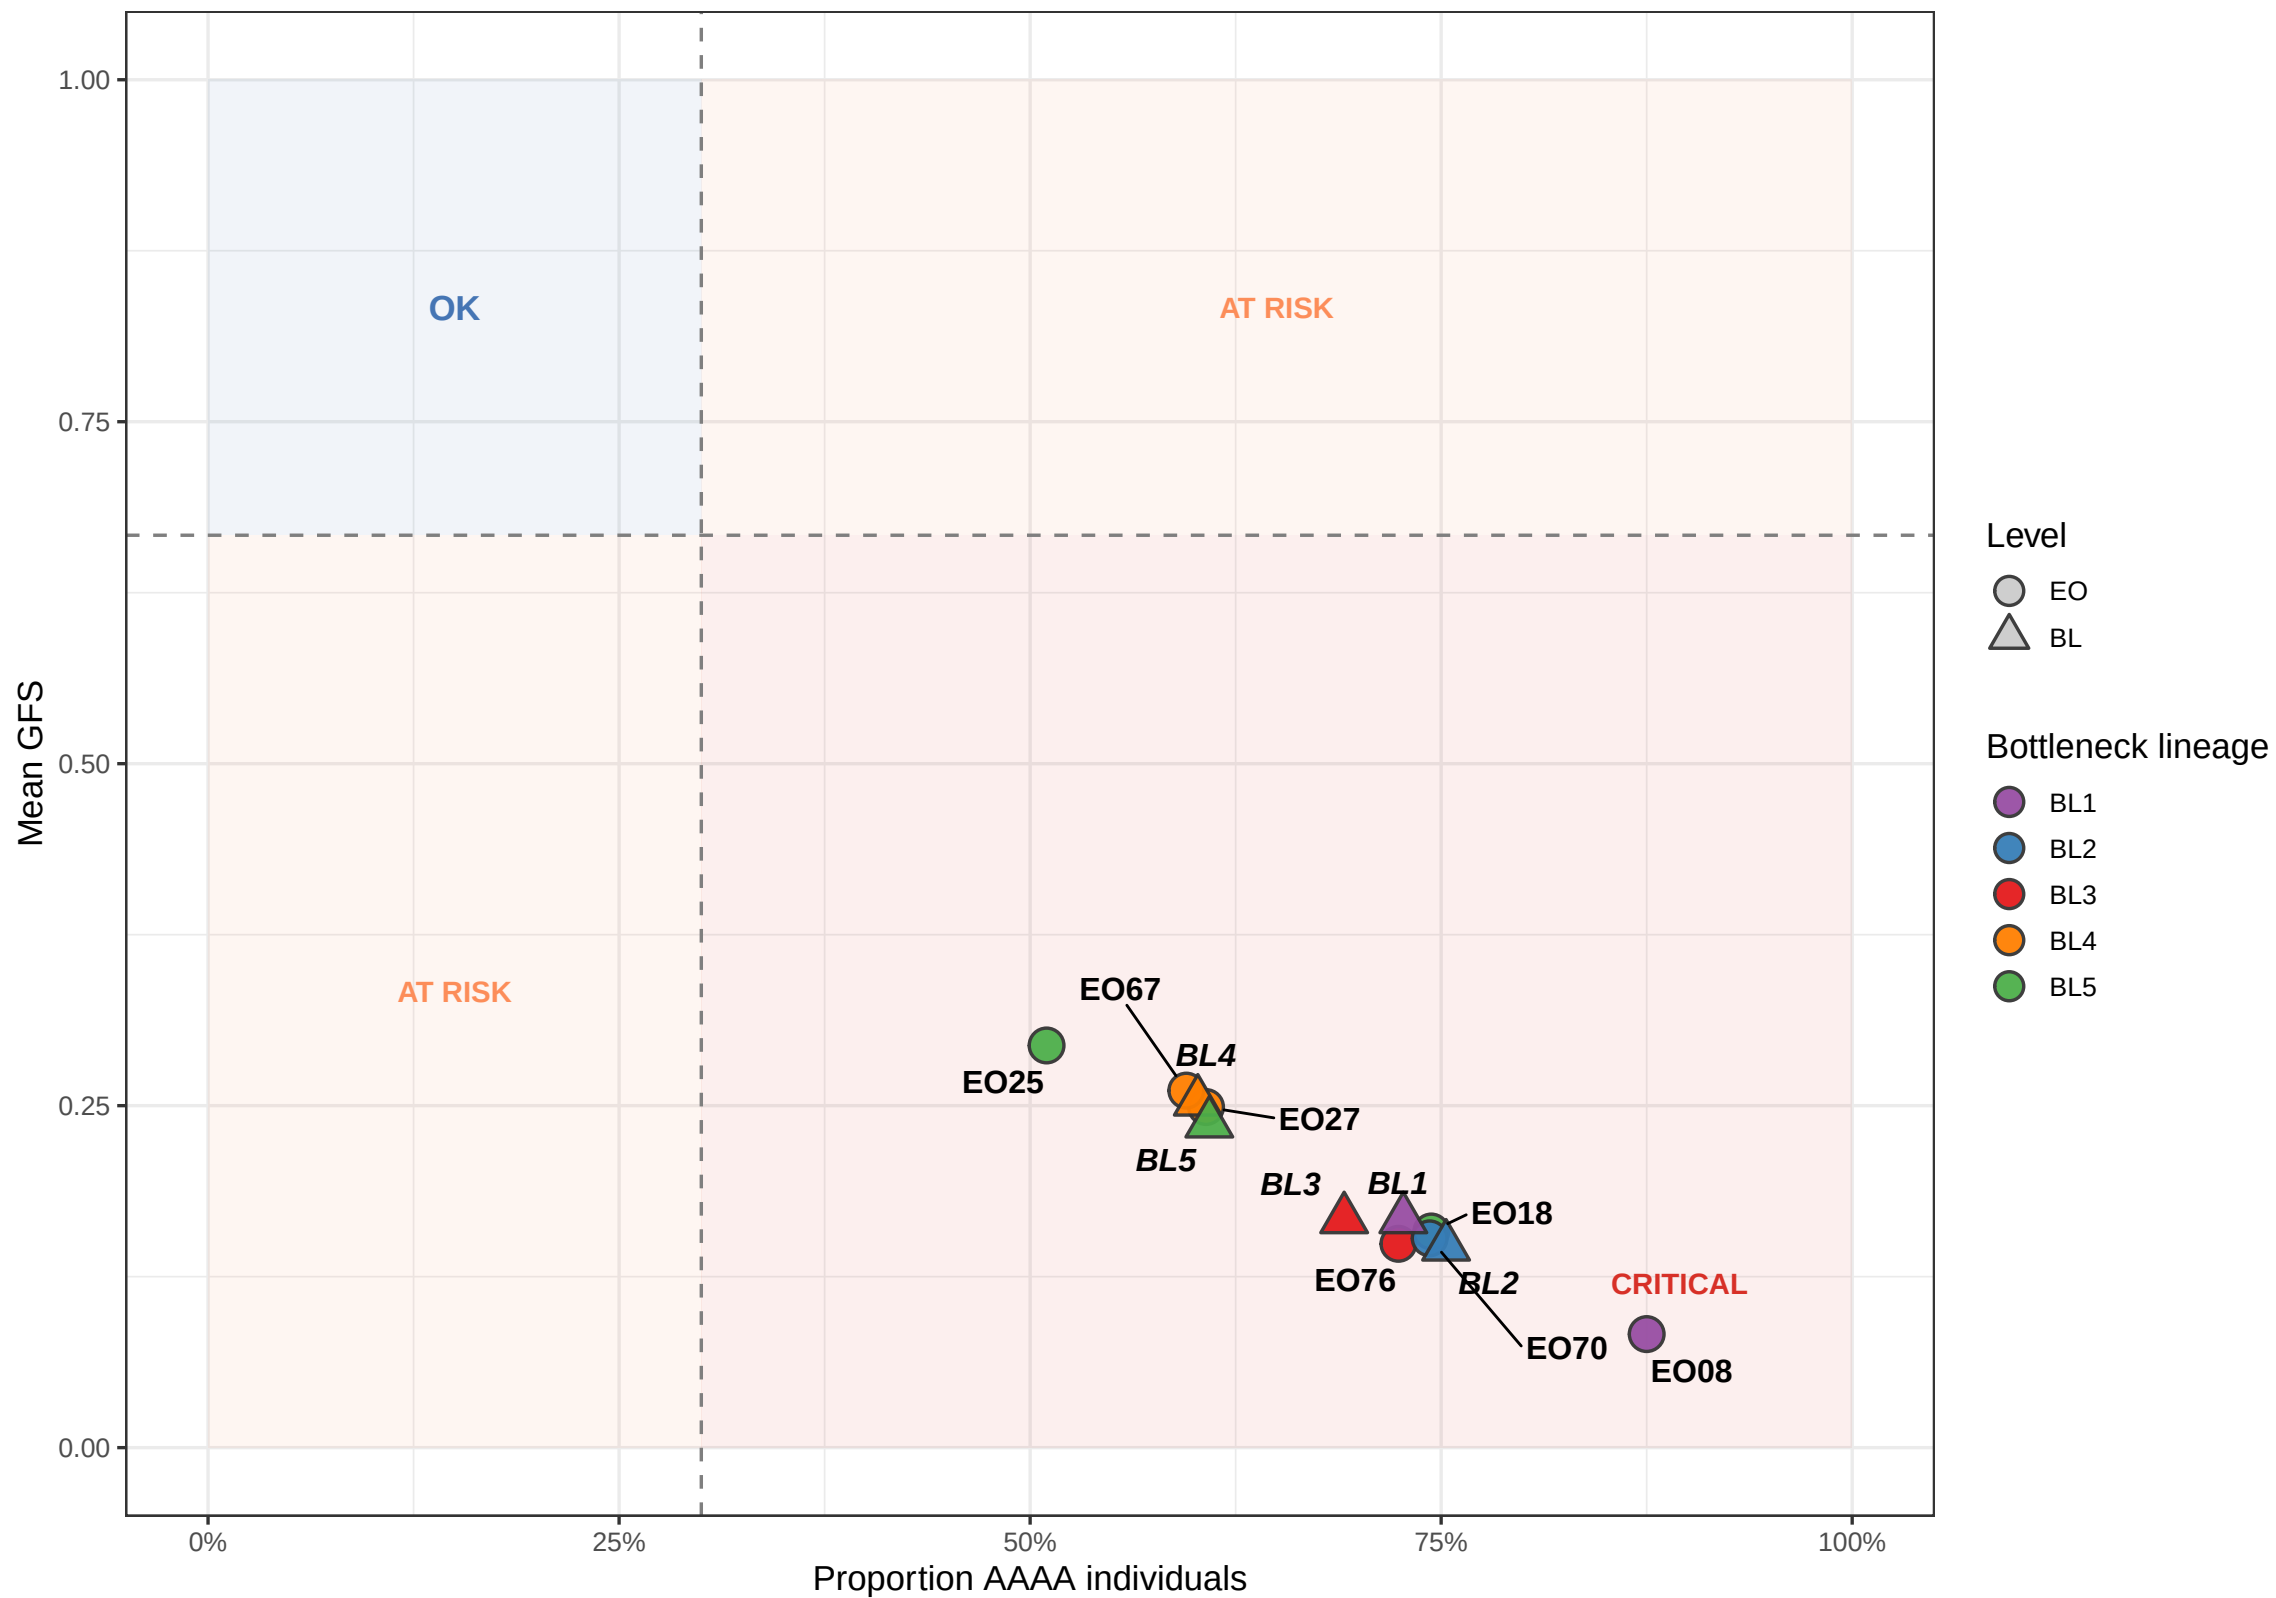

Individual GFS per EO (sorted by parent BL)

Bar = EO mean. Red dashed = AABB threshold (0.667); orange dotted = AAAB threshold (0.500). X-axis labels colored by parent BL.

Tipping Point 2 – Genotypic fitness status

Circles = EO (N >= 5), triangles = BL aggregates. Colors = parent BL (Set1, matching LEPA_EO_spatial_clustering).

Genotype class counts per EO (sorted by parent BL)
