

Predicted SRK allele diversity per LEPA location — unbiased truth (A) vs sampling recovery (B) vs coverage (C) — 2025
Under the tetraploid P1 finite-population model, each seed's 2 paternal alleles sample the local pollen donor pool.

BL4 BL5 BL3 BL1 BL2

A. What Nature holds at each location

B. What our sampling will detect

C. How well the sampling recovers the truth
